**Course Description:** You are inside a self storage rental facility having responded to a report of unknown persons walking the hallways with the caller worried that they may be breaking into storage units. You located two suspects by one of the units and are awaiting backup. One suspect has become verbally combative and is slowly trying to move towards you. You pull your Chemical Agent Dispenser and warn him that you will spray him if he does not back up. You are just about to spray him when you see the second suspect reach in his waistband and pull a gun. As you draw to engage him the second suspect pulls a large knife and advances.

On the Start Signal, engage Threat Target 2 and then Threat Target 1 from within Firing Area 1. Then move to Firing Area 2 and clear the rest of the storage facility hallways, engaging Threat Targets 3 through 16.

**NOTE:** First Shot Time Requirement on Target 2 = 2 Seconds. Penalty = Actual First Shot Time
