### Course Description

You have responded to a silent alarm at a strip mall jewelry store that has frequent false alarms. You parked a distance away. Just as you reach the sidewalk at the far right side of the store someone who looks like a store employee opens the door and yells “Help we’re being robbed”, waves to you to come in and goes back inside. As you move towards the door you see a person in the window with a face mask bring a handgun up and fire. As you draw and move towards the wall for cover you trip on the curb, fall forward, and drop your handgun as you fall face down on the sidewalk.

On the Start Signal, retrieve your Duty Handgun, and engage Threat Target 1 through the shattered window from the Firing Area. Then engage immediate Threat Target 2 through the glass door and enter the store, locating and engaging Threat Targets 3 through 11 as seen.
