**Course Description:**

It is 0830 and you just arrived at a local bank for a perimeter alarm. The opening employees routinely set off the alarm when they arrive for work in the morning and have been fined numerous times under the municipal Alarm Ordinance. Communications called ahead and was provided the proper False Alarm Code by an employee so you just need to make Person-to-Person contact to verify the false alarm. While going through the first door of the double front doors you see an individual using the ATM in the unsecured area between the inner and outer doors and decided he is just using the ATM. As you begin to open the second door, you see an employee being held at gunpoint with several other armed suspects inside. As you see them, one raises a handgun towards you. As you fire and withdraw you see the “innocent” at the ATM is actually an armed lookout. On Start Signal, engage Threat Targets 1 thru 3 from within FA-1 with Duty Handgun, while moving engage Threat Target 4 at the ATM as you withdraw from the bank. Obtain your Patrol Rifle from cruiser trunk, move to dumpster enclosure for cover, and from within FA-2 engage Threat Targets 5 thru 16 exiting the bank.
