**Start Position:** Duty Handgun loaded and holstered. Standing with heels on Start Line and Duty Shotgun at Shoulder Ready loaded to Cruiser Safe with 4 rounds (Safety ON, Bolt Locked on Empty Chamber, and Magazine Tube loaded). A match provided EOTech equipped rifle is staged down range with an empty magazine locked in place and bolt closed. It belongs to the downed officer. The RO will place two of your loaded rifle magazines in the downed officer’s magazine pouches. This is the only rifle ammunition you may use. You may only transition to handgun for rifle shots if the rifle has a double feed and requires more than Tap-Rack-Ready to clear.

**Course Description:** An officer marked out that he was checking on the sound of gunfire at the equipment lot of a construction company. While en route as the backup officer you hear communications trying to contact him on the radio and he does not respond. When you arrive you see the officer’s cruiser parked in front of a locked gate and park next to it. Your cruiser is equipped with a Duty Shotgun so you grab it, walk around the gate and start down the short driveway. After a few yards you see the officer lying on the ground approximately 50 yards away by a dumpster enclosure. As you run towards the officer you pass along a fenced enclosure and hear a commotion on the other side. Looking through open slats you see armed subjects just as they see you and you come under fire. On Start Signal, from within FA-1 engage Threat Targets 1 thru 4 with your Duty Shotgun. When your shotgun goes empty immediately transition to your handgun and engage Threat Target 5 using Muzzle Up, Muzzle Down or a Sling Transition. With no shotgun ammunition left you handcuff it to part of the fence. While moving thru FA-2 to get to the downed officer, engage Threat Targets 6 thru 10. Move to FA-3, recover Downed Officer’s Rifle and engage Threat Targets 11 thru 15.
