**Course Description:** You are outside a residence taking a report from a person whose vehicle was vandalized. You remember being at the residence several times before on disorderly loud party calls and that the house is shared by several persons. While in the process of taking the information for the report an individual exits the house and heads your way. As he approaches you think you recognize him as someone wanted for felonious assault and narcotics violations. You ask him for his ID and he reaches underneath his t-shirt for something as he runs towards the house. You start to chase after him when the subject you were taking the report from steps in front of you to block your path and tries to push you down.  
On the Start Signal, draw and extend your Expandable Baton and knock the training dummy completely off the table from within the Start Box using one or two handed **overhand baton strikes.** You cannot push the dummy off with your hands or baton. Failure to use the proper striking method will result in three Procedural Penalties. Then enter the house, search for suspects, and engaging any Threat Targets found from within the Firing Area.
