

# NRA TACTICAL POLICE COMPETITION - COURSE OF FIRE

<b>Course:</b> 1	<b>Course Name:</b> Officer Down
<b>Stage Type:</b> Scenario Based	<b>Start / Stop:</b> Shot Timer / Last Shot
<b>Targets:</b> 12 Clays, 10 Steel, 8 Paper	<b>Scoring:</b> TPC - Best 2 Hits on Paper / Steel Must Fall or Flash
<b>Firearms / Rounds Required:</b> Handgun = 20 Rounds / Shotgun = 12 Birdshot / Duty Rifle = 12 Rounds	
<b>Start Position:</b> Handgun loaded & holstered. Standing with heels touching Start Line with loaded Shotgun at Shoulder Ready. A match provided EOTech equipped rifle is staged down range. It belongs to the officer who arrived ahead of you. The RO will place two of your loaded rifle magazines in the downed officer's magazine pouches. You must use this ammunition prior to using any other magazines you may have (2 Procedurals for failing to do so).	

**Course Description:** You have arrived as back-up for a fellow officer investigating a report of a juvenile carrying what looks like a shotgun in the park. You are following the park path into the woods trying to locate the other officer who has failed to answer the radio when you hear gunfire to your front. At the start signal engage Clay Targets 1 thru 12 with the shotgun. You have no more shotgun ammunition and decide to handcuff the shotgun to a bench and move on. This will be simulated by placing the shotgun muzzle down, with safety ON in the open top barrel. Advance on foot path and engage Threat Paper & Steel Targets 13 thru 24 as seen with your handgun. As you continue to advance to a pumping station building you see the downed officer and come under fire. The threat's distance requires you to use the downed officer's rifle. Recover it and engage Steel Targets 25 thru 30 with 1 rifle round from one side of the building. You receive incoming rounds and are forced to move to the other side of the building for cover. Reengage each Steel Target with 1 additional rifle round. RO will call Hits on all non-falling steel. All rounds must be fired from within the Foot Path – Firing Area.
