

Iowa Police Combat League

Combined NRA Police Pistol Combat Tournament Announcement
for the
Iowa State Championship Police Pistol Combat Tournament
and the
IPCL Regional Police Pistol Combat Tournament

The Iowa Police Combat League invites you to come out and shoot our upcoming back-to-back Police Pistol Combat Tournaments.

We will be conducting the Iowa State Championship Police Pistol Combat Tournament on Saturday August 8th and the Iowa Police Combat League Regional Tournament on Sunday August 9th, 2020.

These Tournaments are also a great way for all of us experienced Police Pistol Combat Shooters to bring a new shooter and expose them to what the PPC program is all about and show them how it can help them improve their qualification scores and practice their handgun skills that may literally help save their life or the life of our citizens.

While we will not be running any NRA Duty Gun Matches, they can fire in the Open Class and Distinguished Matches using just a duty gun. They just need their duty gear and four magazines.

So let's all take on the **Bring a New Shooter Challenge** and bring a fellow officer or deputy to see how challenging and fun these matches are.

Governing Rules: Current NRA Police Pistol Combat Rules will govern throughout the Tournament. All competitors are encouraged to review the current PPC rules. The NRA Police Pistol Combat Rule Book is available on-line at ppc.nra.org or use your smart phone camera to scan this Quick Reader Code or Double Click your cursor on it.

Eligibility: Open to any eligible law enforcement member as outlined in Police Pistol Combat Rule Section 2.4. These include active and retired Law Enforcement Officers, and full time Police Firearms Instructors, Transit Police, Penal Institution Guards, Industrial Police which includes Bank Guards and Armored and Express Company Guards and Military Police. Federal Flight Deck Officers who hold valid certifications are also eligible.

NRA Membership is not required for any NRA competitions but is encouraged. A special law enforcement discount form for NRA Membership and Renewal will be available at check in for law enforcement members.

Team Match Eligibility: Teams will consist of two or four firing members and a Team Captain. The Team Captain may be a competing member of the team. All team members must be from the same agency. Membership can include officers retired from the agency if they are not now employed by another eligible agency. Eligible Military competitors who are also regular full time law enforcement, industrial law enforcement, or reserve/auxiliary law enforcement must sign up with other members from their law enforcement agency. No “pick-up” teams are allowed.

A competitor may shoot in all team matches, but cannot shoot as a member of both a two and four officer team in the same firearm match type. For instance, you cannot compete in Two Officer Open Class Semi-Automatic Team Match 33 and Four Officer Open Class Semi-Automatic Team Match 32.

Individual Classification: Competitors will be entered using their current NRA Police Pistol Combat Classification of High Master, Master, Expert, Sharpshooter, Marksman, or Classified. Competitors with expired Classifications, new shooters with no Classification, or those without a Temporary Record Score Book will be registered in the High Master Class as required by PPC Rule 19.2.

You can check your current NRA Classification at LEcompetitions.nra.org or by using your smart Phone camera to scan the Quick Reader Code to the right or Double Clicking on it with your computer cursor.

Team Classification: The teams will be Classified based on the Individual Classifications of each Team Member following NRA PPC Rule 19.16. To assist Team Captains in formulating their team membership, Rule 19.16 is printed below.

19.16 Team Classification: Teams are classified by computing the Team Average Classification” based on the individual classification of each firing team member. To compute the Team Average Classification each team member is assigned a classification value based on their individual classification using the below table. The Classification Value for all team members is then added together and the sum is divided by the number of team members. The resulting number is used to determine the Team Average Classification by using the same table. Fractions of .5 are rounded up and will place the team in the next higher class. The “team average classification” will not affect in any way the individual classification of team members.

Example: Team member 1 holds an Expert Classification so is assigned a Classification Value of 4. Team Member 2 holds a Marksman Classification so is assigned a Classification Value of 2. Team Member 3 also holds an Expert Classification so is assigned a Classification Value of 4, Team Member 4 holds a Master Classification so is assigned a Classification Value of 5. Adding the Classification Values together gives a total of 15. Dividing this by 4 (total team members) gives a Team Average Classification of 3.75. Since fractions of .5 are rounded up, 3.75 is rounded up to 4 and classifies the team as Expert.

CLASSIFICATION VALUES

Classification	Value
High Master	6
Master	5
Expert	4
Sharpshooter	3
Marksman	2
Classified	1
Unclassified	0

When you get your Production Distinguished scorecard **YOU** must record your competitor information, the information about the Production Pistol and Sights you want to use, the page number your pistol is listed on and its Approval Number in **NRA Police Pistol Combat Bulletin 14-1.**

Prior to shooting, your pistol **MUST** be **INSPECTED** and **TRIGGER PULL WEIGHED** to Certify your pistol as approved by a Tournament Official who will sign your scorecard.

Scorecards are later reviewed by NRA LE Competitions before your score is validated and recorded. Scorecards with missing information or not signed by a Tournament Official are not recorded so **YOU** need to make sure all sections on the scorecard are complete.

Please note that **YOU** must record your sight information on your NRA Production Distinguished Pistol Scorecard.

So if you have replaced the original sights make sure you know the name, model of the sight, the page number they are listed on, and their Approval Number as listed in **Police Pistol Combat Bulletin 16-1.**

The NRA has made it clear that **NO** matter what **APPROVED** Replacement Sight is used, the sights **MUST** keep a Duty Gun Point of Aim/Point of Impact, **NOT** a competition set up, such as a Neck Hold, Shoulder Hold, or Head Hold.

A Duty Gun Point of Aim/Point of Impact sight set up requires the sights to be aligned on the **X Ring/Center Mass** to obtain a Hit in the **X Ring/Center Mass** area.

Pistols with competition sight set ups will be **Disqualified**, even if having already been used to fire a Match. Competitors may be required to allow their pistol to be test fired, or checked with a laser boresighter to check the sight set up.
