Distinguished Production Pistol Badge History

The NRA Distinguished Production Pistol Badge Award was approved by the NRA Board of Directions in January of 2018 to recognize law enforcement members who fire multiple exceptional marksmanship scores in the NRA National Police Course of Fire at the National Police Shooting Championships, a State Championship, or Regional Tournament.

The Distinguished Production Pistol Badge is awarded after a competitor earns 30 Distinguished Production Pistol Award Points. Award Points are issued after Tournament scores are received by NRA Law Enforcement Competitions. After all competitors who are already Distinguished are removed from the match results the highest scoring top ten percent of competitors are issued Distinguished Points following the award formula in PPC Rule B3.
